ABOUT US

REPOD is a digital studio dedicated to delivering high-quality audio and video content that keeps our audience informed, engaged, and entertained. Designed for modern listeners, our platform makes it easier to consume daily updates, insightful discussions, and thought-provoking stories—whether you're commuting, cooking, traveling, or working.

Our content spans a vast range of topics, from business and technology to lifestyle and current events. If there's a topic on your mind, you'll likely find it on REPOD.

OUR MISSION

Podcasting has revolutionized digital content consumption since the early 2000s, evolving from audio downloads to a global media phenomenon. Inspired by this evolution, REPOD initially launched as an audio-only platform. However, due to overwhelming audience support and the growing demand for visual content, we expanded into video podcasting

Today, REPOD is more than just a podcasting platform—it's a community of thinkers, storytellers, and industry leaders engaging audiences across various social media channels. Our goal is to redefine podcasting in Dubai and beyond, making it more interactive, innovative, and accessible.
